Notes: The answers to this question may seem paradoxical to students: the lowest value of resistor dissipates the greatest power. Math does not lie, though. Another purpose of this question is to instill in students' minds the concept of components in a simple parallel circuit all sharing the same amount of voltage.. Challenge your students to recognize any mathematical patterns in the ...

Notes: Rules of series and parallel circuits are very important for students to comprehend. However, a trend I have noticed in many students is the habit of memorizing rather than understanding these rules. Students will work hard to memorize the rules without really comprehending why the rules are true, and therefore often fail to recall or apply the rules properly.
