### Global Surgery And Public Health

Despite such a surgical imbalance around the world, surgery is still "the neglected stepchild of global health". 4 No global funding organization focuses specifically on the provision of surgical care, and none of the major donors are willing to support and acknowledge surgery as an imperative part of global public health. This is largely due to the following common misperceptions about surgery that are not grounded

from childbirth can be successfully treated with surgical intervention, but there are vast inequalities in access to safe, essential surgical care worldwide.

---

King's College London - Global surgery

Only recently has surgery been brought to the table, being called the "forgotten step-child" of global health by Paul Farmer and others. At the core, global surgery is "a field that aims to improve health and health equity for all who are affected by surgical conditions or have a need for surgical care, with a particular focus on underserved populations in countries of all income levels, as well as populations in crisis, such as those experiencing conflict, displacement, and
