Miller's Guide to the Dissection of the Dog, 4th ed

The first portion of the dissection will be a detailed examination of the brain surface. No actual cutting of the brain is required for this portion of the dissection. As you proceed to identify the listed parts of the brain, note their structure and how they are related to other parts of the brain.

DISSECTION OF THE SHEEP'S BRAIN - Hanover College

The human brain is not only one of the most important organs in the human body; it is also the most complex. In the following tour, you will learn about the basic structures that make up the brain as well as how the brain works. This is not an in-depth look at all of the research on the brain (such a resource would fill stacks of books).
