Caterpillar Connection Diagrams: SR4  
and SR4B Generators ...

In the past, the exciter was a small DC generator coupled to the same shaft as the rotor. Therefore, when the rotor rotates this exciter produces the power for the electromagnet. Control of the exciter output is done by

# Download File PDF Manual Exciter 480 Generator

varying the field current of the exciter.

Excitation in Power Plant Generators:  
Brief Overview ...

The excitation system is the single unit in which the each alternator has its exciter in the form of generator.

## Download File PDF Manual Exciter 480 Generator

The centralised excitation system has two or more exciter which feeds the bus-bar. The centralised system is very cheap, but the fault in the system adversely affects the alternators in the power plant. Types of Excitation System. The excitation system is mainly classified into three
