Many ovens come with both a grid and a
baking tray. When food is prepared on the
grid, the baking tray can be placed on the
bottom to prevent food remains from
burning and causing smoke. This was
helpful (68) share.

If you press Steam Clean when the oven temperature is above 100°F, Hot will appear in the display. Because these functions produce the best results when started while the oven is cool, we recommend that you wait until the oven has cooled down and Hot disappears from the display.
