The Middle East conflict originated, literally, in the womb of a beautiful woman – Rebekah, Isaac ’ s wife. Her ‘ struggling ’ twins, from their mother ’ s womb, have often engaged in a love/hate embrace, scorching their lands with periodic eruptions of bloody conflicts. Their descendants, though gradually lost their identity, have spread their struggle for ‘ the global inheritance ’ into Europe, the Americas, and elsewhere. The march of Islam, of Muhammad, “ the man of the sword ” ; the present Jew/arab conflict; the Persian Gulf menace; fanatic Islamic world terrorism and their main target – the West – are a direct result of the twins ’ struggle, which begun while in their mother ’ s womb. Human history and its future can ’ t be fully comprehended without correct understanding of the roots and turbulent history of the struggling twins. You, the reader, are destined, regardless of your ethnic background and religion, to soon experience the final consequences and glorious triumph of this age-long bloody conflict. From as early as 2000 BC, the islands of Great Britain and Ireland attracted the migrating Hebrew people. Many students of early European history have been puzzled by the persistent westward trek, as though some irresistible magnetism drove those tribes with wanderlust toward the islands of the west. It was not that they were seeking new pastures, for there were rich lands on the way. It was an inner power and their calling as Gods people that compelled them to seek the islands of their destiny. In *The Islands of Destiny*, author William Walker reveals the British peoples glorious identity and explains Isaiahs writings in connection with its history. Originally prepared as a series of lectures, this historical study, complete with illustrations, explores the ancient Chronicles of Eri, the history of Gaal Scot of Iber, early Britons, and the British, Irish, Spanish, Scottish, and American connection to the birth of the Anglo-Saxon-Celtic nations, focusing on the British Isles and Ireland.

The royal family of Judah had a tremendous impact on history and played a role in shaping who we are today. In *"Judah Scepter,"* author Brian Arundell Howard provides a refreshing perspective about this family who migrated from one continent to the next, guiding the populace to a better life. Filled with timelines, graphs, and maps, *"Judah Scepter"* contains both descriptions of tradition and historical facts about individuals within a royal genealogical line from biblical times to the present, documenting their contribution during the ages to the divine will. In addition, Howard discusses how the inherited scepter of Judah is used to uphold precedence over time. Judah and the Trojans seek out to do the will of God, Zeus, and Justice; the Franks and descendants of Charlemagne seek out to spread Christianity; and the Arundell Howards seek to do duty for their faith. How each scepter holder maintained their precedence is captivating and informative, as it progresses from biblical times, continents, genealogies, and governments. Gleaned from years of research, *"Judah Scepter"* educates and enlightens by introducing the transformation of Judah Scepter in relation to history.

* What is the standard view of history is completely wrong? * What if science and writing developed from an advanced prehistoric civilisation in the British Isles? * What is written evidence in the Dead Sea Scrolls records megalithic history and provides the plans for a machine that could rebuild civilisation following a global catastrophe? * And what if Jesus and his brother James were practitioners of megalithic astronomy? In *URIEL'S MACHINE* Knight & Lomas offer powerful new evidence that our planet was hit by seven mountain-sized lumps of comet, creating a series of giant waves that ripped across the globe. Putting together the latest findings of leading geologists with their own sensational new archaeological discoveries, they show how a civilisation emerged and was able to build an international network of sophisticated astronomical observatories which provided accurate calendars, could measure the diameter of the planet and accurately predict comet impact years in advance. The revelation that this is the true purpose of the great megalithic sites in Western Europe, built long before the Egyptian pyramids.
