The political history of the world is the history of the various political entities created by the human race throughout their existence and the way these states define their borders. Throughout history, political entities have expanded from basic systems of self-governance and monarchy to the complex democratic and totalitarian systems that exist today. . In parallel, political systems have ...

~~Political history of the world—Wikipedia~~

Political history is the narrative and survey of political events, ideas, movements, organs of government, voters, parties and leaders. It is interrelated to other fields of history, especially diplomatic history, as well as constitutional history and public history. Political history studies the organization and operation of power in large societies. By focusing on the elites in power, on their impact on society, on popular response, and on the relationships with the elites in other social hist

The early development of political science was also influenced by law. The French political philosopher Jean Bodin (1530 – 96) articulated a theory of sovereignty that viewed the state as the ultimate source of law in a given territory. Bodin ' s work, which was undertaken as the modern state was first developing, provided a justification of the legitimacy of national governments, one fiercely defended to this day.
