Writing the Results section of an article is as important as conducting the study itself. This section is the center or soul of the article, and authors often consider it a starting point for building the whole paper.

Writing the Results Section - A Guide to the Scientific ...

This guide was inspired by Joshua Schimel's Writing Science: How to Write Papers that Get Cited and Proposals that Get Funded—an excellent book about scientific writing for graduate students and professional scientists—but designed to address undergraduate students. While the guide was written by a group of ecologists and evolutionary biologists, the strategies and suggestions presented here are applicable across the biological sciences and other scientific disciplines.

A Guide to Writing as an Engineer, 5th Edition | Wiley. Everyone knows that engineers must be good at math, but many students fail to realize just how much writing engineering involves: reports, memos, presentations, specifications all fall within the purview of a practicing engineer, and all require a

polished clarity that does not happen by accident.
